Camp Cavalier aims to provide high-quality educational and recreational programs for all Fort Wayne-area students. To achieve this, we offer extraordinary opportunities for children of all ages, from age 2 through Grade 12. Whether it's review or enrichment in an academic course, or engagement in a variety of camp activities, Camp Cavalier encourages each child to pursue their passions. Programs are scheduled by students' ages as of June 1, 2022, or grades as of the 2022-23 academic year.

## Camp Sessions

We reserve the right to cancel a session if the minimum number of campers is not met. If we should do so, we'll notify affected families immediately and issue refunds for the canceled session.

Campers are not to leave the building on their own, and they are expected to be with their assigned camp groups at all times. Camp Cavalier reserves the right, in its sole discretion, to deny any camper the opportunity to participate in camp if the child's social conduct or behavior is deemed unsatisfactory by the camp administration.

## Registration, Tuition, and Refunds

To secure a spot at Camp Cavalier, behavior and registration policies must be followed. Additionally:

- No refunds will be made to a camper who, for disciplinary reasons, is asked to leave.
- Tuition monies are non-transferable.
- In case of a camper's/student's withdrawal from the program, the Camp Director must be notified in writing before May 29, or full payment will still be due.

A poet's job is to find the pulse of humanity and tell others about it. During this workshop, we will read and explicate poems from contemporary American poets through the lens of how a poem looks, how a poem sounds, and why a poem feels. Then, as if we are description-detectives, we will set out to write our own poems that revolve around our senses, nature, and the questions that life brings to us. This class will go outside as much as possible. Remember to dress appropriately, and toting along a favorite pen and notebook is encouraged!

In this summer program, we're going to look at the history of photography, including some of the most important works of some of the greatest photographers who have spent careers behind the camera. We'll explore photography as a medium that can involve fictional or non-fictional elements. Our classroom will also be a studio, where we will capture portraits and practice fundamentals of framing and focus. We'll move outside to increase our visual fluency with the natural world, creating landscapes that reflect our local environment. Ultimately, each participant will finish the week having curated their own mini-exhibition and developed a digital portfolio of their works.

## Game-a-Thon!

Ms. Jackson  
July 25 - 29 | 9:30 am - 1:00 p.m.

Board games have the ability to foster intellectual and socio-emotional growth, whether you're passing GO! and collecting \$200 or figuring out that it was Miss Scarlet with the candlestick in the Library. Besides developing players' skills in spatial awareness, mathematical reasoning, critical thinking, goal setting, and cooperation, board games allow players to adopt new perspectives on the world, too! Throughout this camp, students will not only have an opportunity to learn and play games from multiple genres, but also to identify the structures of board game design and then design a working prototype of their own board games. The games selected for the camp will give students a comprehensive understanding of the skills and fun to be gained through meaningful collaboration and unreserved play.

**NOTE:** For any campers interested in Game-a-Thon and Chess, we will provide bus service to the Smith campus.
